EXECUTIVE SUMMARY

On November 15, 2010, thirty-two leaders and experts in behavioral health and tobacco control came together with a goal to create an action plan for New York State to reduce smoking prevalence among people with behavioral health disorders. Partners were well-aware that people with behavioral health disorders are disproportionately burdened by the harmful effects of smoking and tobacco use. At the summit, the partners designed an action plan to address the issue of tobacco dependence. The summit was supported by the Substance Abuse and Mental Health Services Administration (SAMHSA) and the Smoking Cessation Leadership Center (SCLC) in a new initiative called, “Leadership Academies for Wellness and Smoking Cessation.”

Terry C. Armon, RN MS NPP, NYS Office of Mental Health, summit coordinator, welcomed the group and introduced seasoned facilitator, Jolie Bain Pillsbury, PhD. Each participant expressed their interest in the summit. Themes that emerged from the group’s interests were action, training, policy changes, collaboration, shared learning, and taking implementation to the next level (see Appendices A and B).

After a data-filled Gallery Walk of New York, the New York State Mental Health Commissioner, PhD, made a call to action. In his speech, Dr. Hogan emphasized the group’s important task and stated, “By the end of the day, we will produce a crisp plan with challenging but achievable steps. A year from now we will know the impact and 10 years from now we will know the lives saved from our work.” He added, “Statistics don’t begin to tell the depth of the problem. The people we serve are being poisoned by tobacco. Now is the time for us to take action. Despite the challenges, we see a lot of opportunities. Let’s use all the energy in the room to collect our contributions, and I look forward to seeing the action plan.” Dr. Hogan also expressed thanks to Drs. Steven A. Schroeder and Jill Williams for their presence. Commissioner Hogan ended his call to action saying that he “would like to anticipate a few years from now when we can gather again and celebrate success.”

Steven A. Schroeder, MD, Director, Smoking Cessation Leadership Center, presented on research on smoking prevalence, health effects, and cessation, and made an overview of innovations in the management of smoking cessation.

By the end of the summit, the partners answered the following questions:
1. Where are we now?
2. Where do we want to be?
3. How will we get there?
4. How will we know if we are getting there?
5. What will each of us do and when?

The following action plan details the group’s recommended strategies and next steps.
The Adopted Baseline and Target

The partners adopted a baseline measure of 30% of serious mental illnesses smoke and 50% with mental illness and substance use disorders smoke (from Patient Characteristic Survey conducted by NYS Office of Mental Health). The target will be to reduce by 10% each by 2015.

<table>
<thead>
<tr>
<th>PRIMARY BASELINE (PCS)</th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>% of Smokers in SMI</td>
<td>30%</td>
<td>50%</td>
</tr>
<tr>
<td>% of Smokers w/ MI and SU</td>
<td></td>

<td>OMH and NYS Tobacco Control to reach out to these groups.</td>
<td>February 1, 2011</td>
<td>Sensitize personnel in these agencies to the need for smoking cessation among their clients and</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>Celia to facilitate</td>
<td></td>
<td>1) More calls to Quitline</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>2) Greater advocacy in agencies and self-help groups</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Refer to Quitline and distribute state Quitline cards.

Constitute an advisory group to the NYS Tobacco Control and OMH composed of representatives from clients, families, agencies to advise and implement smoking cessation strategies.

Develop a proposal to NYS Tobacco Control and the OMH. Steve and Celia March 1, 2011 Give energy and reach to smoking cessation strategies.

1) Existence of such a body
2) Frequency of meetings and accomplishments
3) Evidence of advocacy efforts on behalf of tobacco control by this group.

Next Step: Interact with liaison team to ensure buy-in of critical stake-holders.

LIAISON: Celia Spacone, with assistance, as needed, from Steve Schroeder

**NEXT STEPS**
- Look up lozenges, unlimited, research to get more information in terms of data
- Discover what other programs are doing; look for other champions using NRT. Follow up with Niagras (?).
- Communication: Start with email and share info in the next couple of weeks. LIAISON: Terry Armon
Next Steps for each Strategy Group:

NRT
- Look up lozenges, unlimited, research to get more information of data, discover what other programs are doing, look for other champions using NRT. Follow up with Niagras (?).
- Communication: Start with email and share info in the next couple of weeks.
- Liaison – Terry

TRAINING (consolidated)
- Bring together council to get web within the state.
  - Start with crucial stakeholders, then branch out
  - Bridge together the experts
  - Report core training
- Hold meeting in Mid-January (week of Martin Luther King)
- Liaisons: Greg and Daryl

PEER
- Seek grant funding if needed
- Start conversation with Jeff and Greg Miller about possible collaboration
- Next step: Interact with Liaison team to ensure critical buy-in
- Next Step: Interact with liaison team to ensure buy-in of critical stake-holders.
- Liaison: Celia Spacone, with assistance, as needed, from Steve Schroeder

POLICY
- Include objections from the group about Medicaid benefit
- Add elements to regulation plan – institute tobacco-free facility rule
- Develop communications plan
- Hold phone conference in a couple of weeks
- Liaison: Lloyd Sederer (temporary)

Terry Armon
- Will convene liaisons via conference call in the next few weeks.
Appreciations and Closing Remarks

The summit ended with words of appreciation.

- Appreciate being a part of this which has tremendous potential. NY will become a leader in this area. Could be the best place for tobacco cessation treatment.
- Exciting to be part of this because OASAS has been a lone soldier. Great to have sister agency to work with. Look forward to seeing OMH become tobacco free as well and working with everyone.
- Appreciate working with thought leaders in this room, and brainstorming strategies.
- Important for OMH to take part of this effort. We are joining with so many others is very critical to being able to help our clientele. It’s going to be hard, but we like to do hard things.
- Been a pleasure to see how concrete things can become so quickly.
- This is a very successful summit because it was lead well, and there are so many expertise. In a time when the state is getting squeezed, we came together. The hard work is yet to start. We need real ownership from the top to carry out the plan.
- Appreciate to spend time brainstorming with Dr. Schroeder. Look forward to seeing some of our hard work.
- Appreciate spirit of collaboration, energy, collaboration, and motivation. Exciting to start the build
- Hopeful to get plan off the ground.
- Satisfying to see achievable strategies with an action plan.
- Nice to see some movement with outcomes and next steps that will hopefully lead to something. Also frustrating with financial issues in the state.
- Enjoyed all the different perspectives that were here. Look forward to the next step.
- Exciting opportunity to see and be part of this summit.
- It’s been a great experience. This is a new niche that I found. Find a niche and hitch. To be a good leader, have to be a good servant. Look forward to increasing the motivation and passion of my fellow physicians. Accessible, available, adequate, appropriate for clients.
- Appreciate the work, facilitation, and recorder. I’m in it for the long haul. Whatever I can do realize the implementation of our strategic plan, I’m there.
- Appreciate being with leaders in the field to get the momentum going. Rely on each other to move this along.
- With a large state, I was amazed with the participants in the room to gather expertise and rollout the plan that we have.
- “Be careful what you ask for.” This summit went beyond my expectations. Look forward to speaking with the team on how to move forward. Appreciate Jolie and SCLC for help putting summit together. Thanks to all for pushing the button.
- Enjoyed today, learned new acronyms. Take back to the city and shift change for implementation. Astonished by Dr. Schroeder’s slides. Committed to moving forward.
- Very impressive level of commitment and ability. Have no doubt as we move forward.
- Appreciate having the counties involved in this summit. The issue has come to a ripening point. My challenge in the county is to raise the issue above the louder noise, because our work is important for treating the addiction.
- Better understanding of “tweak” tobacco control for collaboration. Build a few more relationships with folks. Look forward to moving forward.
- I am really in awe. I’ve learned so much from all of you to help save people’s lives and to live better. Your presence is a gift. We will be in touch, especially with the liaisons.
