I. Welcome and Opening Remarks –
   Catherine Saucedo, Deputy Director, SCLC

II. Introductions - All

III. Group Discussions - All

IV. Announcements - SCLC

V. Adjourn
The SCLC/Pfizer IGLC is the first of its kind of public/private partnerships. Collaboration started in 2012 with Pfizer IGLC; SCLC created the RFP, review committee and identified 40 grantees were given a total of $4.5 million in grant funding. In 2013, with NAQC, we designed and implemented a grantee conference. SCLC worked as a project advisor, providing technical assistance to two rounds of grantees, without receiving any funding from Pfizer. Pfizer IGLC has also collaborated with Mayo and Global Bridges on similar projects.
2015 Grantees - Summary

- Total: $2.12 million in grant funding
- 15 projects selected for funding; received 154 LOIs
- Represent 18 different states
- 40% of funded grantees are associations; 33% are academic institutions; and 27% are hospitals
• 12 projects with regional reach
• 3 projects with national reach
• 6 projects involve utilization of quitline systems
• 5 projects involve modification of electronic health records
• Funded proposals are estimated to train over 5,200 providers

Group Discussion 1: Barriers and Solutions

Throughout your work on this project, what barriers have you faced and what solutions have you found to these barriers, if any, to allow you to implement your project? Success stories are welcome.
Group Discussion 2: Resources

What resources are you using in your project, which you would recommend, and/or wouldn’t recommend?

Resources can include vendors, software, evaluation consultants, partnerships, benchmarks, training materials, curricula.

What resources do you need for this project?
